

Making Sense of the Research: *Team Reflections About...*

Rationale or purpose for research (e.g. what issue or problem is addressed and why?)

Main findings or conclusions from the research

Populations, contexts, outcomes, interventions, or practices studied

What key questions or ideas will we keep in mind moving forward?

Making Sense of the Research: *Questions and comments on...*

Research methods and strength of evidence

Attention to issues of equity in the research

The relevance to educational policy or practice and/or to specific contexts

What have we noticed that we need to keep in mind as we move forward?

Making Sense of the Research: *Constructing Implications*

What are the key implications (for policy, practice, or both)?

What potential equity issues are important to note?

Why are these messages important for policy and practice? Who needs to hear them?

Key messages and implications to share from this research
